QUIK GLUE

CD4220

WHITE - 220cc - 30 second set time

Made in U.S.A.

CD4220.revD.02082023

8 11576 02137 1

Coyote®

Instructions

- 1** Purge the cartridge. Snap off the tip with screw driver. Insert cartridge into dispenser gun. Expel a small amount of adhesive to purge the cartridge.

- 2** Install mix tip
Line up mix tip appropriately and screw into place.
Tips can only be used once.

- 3** Run a test bead approx. 1" in length. Store unused portion by leaving the mix tip on when done.

- 4** Leave used tip attached as a cap until next use to keep glue from drying out in the tubes.
When your ready to use the glue again remove old tip and replace with a new tip.

CAUTION

1. Read carefully BEFORE applying adhesive to ensure proper adhesion.
2. Quik Glue sets fast. To ensure a proper bond, work quickly. Refrigerate the cartridge to slow down work time.
3. Smaller bead size may affect cure time.

Parts Sold Separately

CDDM220 | Dispenser is required for use (sold separately)
